

## Carnival Game – Plinko

1. Place the carnival tub onto a table or on the ground. (legs are not included)
2. Take all the pieces out of the tub.
3. Connect arm to the back of the plinko board by simply pushing the wooden pegs into the back of the board.
4. Lean the Plinko board back to where the arm lays onto the tub. The Plinko board should lean back slightly if connected correctly.
5. To play, drop the quarters or washers down the Plinko board to get points. You can assign values to each color and add up the points.
