

1. Setting up the Yard Greeting:

Put one hand on each side of the stake, and GENTLY push the stake into the ground. **DO NOT GRAB THE LETTER OR CHARACTER WHILE PUSHING INTO THE GROUND.** This **WILL** damage the plastic. You will want to put each letter into the ground with a slight tilt backwards. (refer to diagram 1 below) This gives the Yard Greeting more visibility. Some lawns may have stones or other hard substances in the soil. You may have to pull out the letter and reinsert it into the ground, making slight adjustments to where it is placed.

2. Cleaning the Letters and Characters:

The Yard Greeting letters and characters must be returned cleaned and dry or a cleaning fee may apply. Cleaning can simply be done with soapy water.
